## Founder and CEO

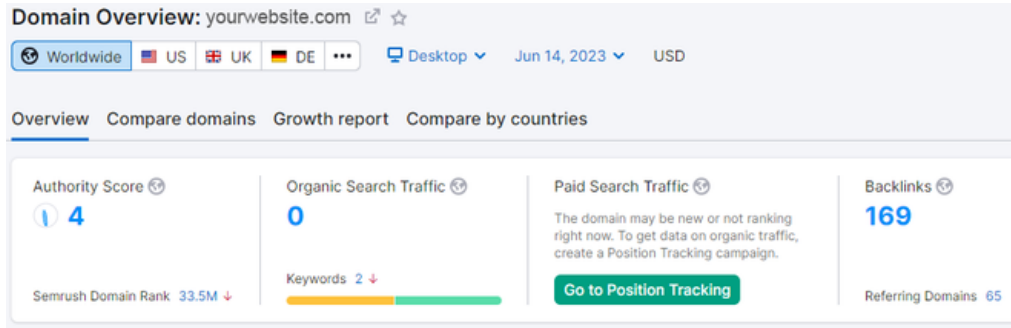

***Marketing has  
always been  
my passion.***

I have worked in many areas, but always related to marketing, in many positions and industries. I've been self-employed in Switzerland since 2007, and since 2016 I've been CEO of GHC GmbH in the field of online / eCommerce marketing. I appreciate the rapid development, the opportunity to achieve great success and to work with nice and great people.

## Mobile Page Speed Analysis

Website Mobile page speed performance is 51 which is not that much good. Mobile Page Speed should be 80+. It is best for google page reliable SERPs ranking because Mobile Page Speed is a ranking factor.

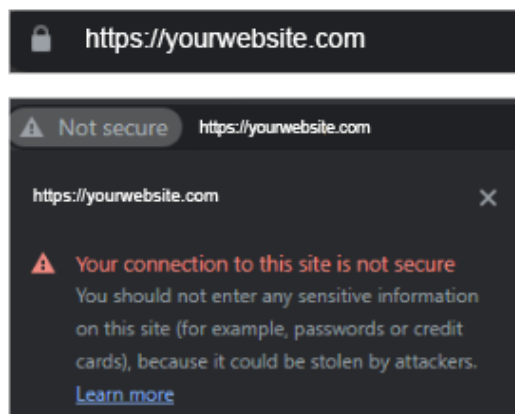

Need to maintain the fastest mobile page speed for reliable ranking in Google SERPs.

## Core Web Vitals

For Mobile

Time until the largest element of the site has a tough loaded time which (LCP) is 5.5 seconds. High LCP is not good for websites. Need to maintain LCP Score for best results. The largest Contentful Paint (LCP) should be <2.5 Seconds.

## Competitor Analysis

## Guest Posting

The Importance of forum posting in SEO is that, you can get a lot of diverse backlinks for your website, and you can also generate traffic to your website. If a topic is not getting much visibility in the search engines, you'll receive more traffic by targeting your posts on the forum.

Forum posting is a part of off page SEO techniques because it helps you get relevant backlinks from authoritative forums. Which plays an essential role in increasing the authority of your website and the number of visitors to your website.

Needless to say, quality content and backlinks are still more important ranking factors. But if your site is taking too long to load and giving users a terrible experience, you definitely should work on [speeding up your website](#).
